"I Love Burnsville because . . ."

I have really good neighbors that help eachother shovel snow in the wintertime and watch eachothers dogs. I also love the schools and the great teachers who care about your learning. I also love Burnsville because of the great parks. I like the castle park and I actully have a park right down the street from my house where I climb trees. I also love Burnsville because in the heart of the city there is a waterpark that I love to play in. I lik to go there with my cousins. I love to shop in the mall with my mom and sister at Justice. I also like to walk my dog Daisy in the big woods. That is why I love Burnsville.

Why I like Burnsville

By Kaleb Robert Palmquist

I like Burnsville, MN because lots of different kinds of people live here. I like being friends with them. There are lots of things to do like go to the park, riding your bike or scooter, and finding interesting places to play. One of my favorites is the Heart of the City. I like playing in the water fountain on Nicollet Avenue by the Art Center. One summer, after the Fire muster Parade, my family went to the water fountain park. It was so hot and we took off our shoes and socks and went in the fountain and ran around the fountain and climbed the rocks.

I love the Burnsville library where I can check out books and movies. Burnsville also has some nice places to eat. I like the Kings Buffet and Chuckie Cheese. Although I've never been to Sonic, I would like to try it one day.

I like Edward D Neill elementary school. The teachers are nice and care about the children. At Neill there are a lot of extra activities to do before and after school. I like Super Saturday at Community Education. It is really fun and I learn new stuff.

Heart of the City Park

I like Burnsville because of the lakes and swimming in the summer. I like Burnsville because of the winter activities. But most of all I like Burnsville because this is where I live.

"I Love Burnsville because . . ." It's great.

The city of Burnsville is a great place to live! The first reason I love Burnsville is it has great schools. The teachers are awesome. They help the kids get better at reading and math. The schools are clean because of the custodians. Burnsville has safe school. They are the best!

The second reason I love Burnsville is it is so clean and beautiful. The yards are clean and well kept too. It is clean because of the street cleaners and responsible community members. Burnsville has a great community.

The third reason I love Burnsville is the Heart of the City. The Heart of the City is in the middle of the Burnsville. On hot days people go to the Heart of Heart of the City to chill off in the Nicollet Commons wate park. The Heart of the city is safe and it's beautiful to look at. Burnsville is a spectacular place to live!
