"I Love Burnsville because . . ."

Burnsville brings my heart to life. I love coming to the Burnshaven library because happiness comes to me when I start to read. Also the librarians are always so nice and always willing to help me find a book just perfect for me. In my beloved William Byrne Elementry school my friends come from all over the world and I enjoy learning about their cultures and traditions. The teachers there are so kind and make learning fun and intresting! I love the Heart of the City because the waterparks there are so fun to play in when your so hot and you just want to cool off! Another thing I love about The Heart of the City is movie night because I love relaxing with my family while watching a movie. Burnsville means everything to me!!
