LAST CHANCE TO PROVIDE INPUT ON BURNSVILLE PARKS MASTER PLAN

Survey Available in English and Español

The City of Burnsville is currently updating its Parks & Recreation System Master Plan. The updated plan is meant to be a practical tool to guide the park system's development/redevelopment for the next 15 to 20 years.

City staff and consultants are looking at the park and recreation opportunities currently available in Burnsville -- and seeking feedback from residents on how it can be maintained and enhanced.

Residents are asked to complete a brief survey at www.burnsville.org/parksplan to provide input that will be used as part of the master plan update.

Encuesta disponible en Español (Survey available in Spanish): www.burnsville.org/parque

The current Parks & Recreation System Master Plan was developed and adopted in 2000. The plan established a vision for the park system - including maintenance, renovation and enhancements through the year 2020.

Although the park system is essentially complete in terms of acreage and basic facilities, the City is seeking input on the current needs, trends and future impacts for the Parks & Recreation System that were not identified in the previous plan.

Deadline for survey comments is Friday, March 10.

For more information or to complete the survey visit www.burnsville.org/parksplan.
