EXTERIOR REMODELING INSPECTION REQUIREMENTS

Phone: 952-895-4444
FAX: 952-895-4512
www.burnsville.org

Prior to scheduling a final inspection on Exterior Remodeling projects, residents/contractors should adhere to the following guidelines

- Sheathing / house wrap pictures are required on all exterior walls *prior to* installing siding products. Pictures of this work must be emailed or dropped off at City Hall prior to requesting inspection.
- Pictures of the ventilation must be submitted to the Inspection Dept. for all Soffit panel installation prior to proceeding with the complete installation.
- Lath inspections are required on all Stucco & Stone

Any residence for which a building permit has been issued for exterior work, shall be completed and ready for occupancy according to the approved plans and specifications *within one year* following issuance of said permit, unless within that time an extension is granted by the council. (Ord. 1230, 2-22-2011).

If you have any questions, please contact the Building Inspection Department at 952-895-4444 between 8 a.m. to 4:30 p.m.
