**BURNSVILLE FIRE TO TRAIN AT COUNTY ROAD 5/HIGHWAY 13 INTERCHANGE
BEGINNING APRIL 28**

Beginning Sunday, residents and motorists near the County Road 5 and Highway 13 interchange may notice fire trucks and ambulances in the area. This activity will be part of fire department training. As a result of road construction taking place this spring, the department will be training on a number of buildings scheduled for demolition.

Burnsville Fire, in collaboration with Ames Construction and Minnesota Dirt Works, will use the vacant structures to practice a variety of tactical skills. Training will take place over the next two weeks. There will be no actual fire used as part of the training.

For more information on the Burnsville Fire Department visit www.burnsville.org/fire.
