BURNSVILLE PROVIDES 2013 SUSTAINABILITY UPDATE

In February 2009, Burnsville's City Council adopted a comprehensive Sustainability Guide Plan for the community.

The plan provides a framework for the City to pursue "environmentally sustainable practices that promote development and maintain or enhance economic opportunity and community well-being, while protecting and restoring the natural environment."

A Sustainability Update is prepared by staff each year to show the progress being made. The two-page update outlines the City's reduction in greenhouse gasses, increases in recycling and energy efficiency efforts in 2013.

The update is available at www.burnsville.org/sustainability, click "2013 Sustainability Update."
