BURNSVILLE 2013 DRINKING WATER QUALITY REPORT AVAILABLE ONLINE

For the third year in a row, the City of Burnsville's annual Drinking Water Quality Report is available online.

In the past, the report – which provides a snapshot of the City's drinking water quality – was mailed to all residents. In an effort to reduce printing, paper and postage costs, the City has chosen to make the report available online rather than mailing.

Individuals may still request a paper copy by calling 952-895-4550. The results from 2013 testing once again show that Burnsville is providing clean and safe drinking water from each of its water sources.

The full water report is available at www.burnsville.org/waterreport.
